

Valderez Pinto Ferreira (valderez@ufpe.br)

Valderez P. Ferreira at East Kilbride Scotland (1996).

Valderez Pinto Ferreira is a full-professor at the Federal University of Pernambuco (UFPE). She holds a B.Sc. (Geology, 1984) and a M.Sc. (Geology, 1986) from the UFPE and a Ph.D. (1991) from the University of Georgia at Athens. Her major interest is on igneous petrology and high-temperature stable isotope geochemistry. During the Ph.D. work, she got a background on high temperature oxygen-isotope geochemistry which was broadened later through traineeship in Japan (Tsukuba, 1988) on analysis and use of sulfur isotopes in granites, and in East Kilbride, Scotland (1996).
