

## Christina Hansen Castellaña

Christina Hansen in a field trip to the Coronel João Sá pluton (1996).

**M.Sc. thesis (1998):** Age and Origin of the Coronel João Sá pluton, Bahia, NE Brazil (Supervisor: Prof. Leon E. Long; Prof. A.N. Sial was member of the advisory committee).

Christina Hansen Castellaña holds a B.Sc. degree (1995) from the University of California at Los Angeles (UCLA) and a M.Sc. (1998) from the University of Texas at Austin. She spent a couple of weeks at the LABISE in 1996 and went to a field trip at the Coronel Joao Sá pluton, Bahia, northeastern Brazil aiming at her M.Sc. thesis, with Profs. Leon E. Long and A.N. Sial. Her major interest is on igneous petrology and isotope geochemistry.
