

**Gorki Mariano** ([gm@ufpe.br](mailto:gm@ufpe.br))

From left to right: Gorki Mariano, A.N. Sial and Tony Fallick in a field trip to granitoids in the Cachoeirinha–Salgueiro terrane (1992).

Gorki Mariano holds a B.Sc. degree from the Federal University of Pernambuco (UFPE, 1981), a M.Sc (1985) and Ph.D. (1988) degrees from the University of Georgia, at Athens, USA. He is an igneous petrologist, geochemist and environmental geologist. Currently, he is a full professor in the Department of Geology, UFPE, in which he entered as associate professor in 1989. From 1990 to 1995, he helped with the installation of several instruments in the LABISE and with the operation of a conventional high-vacuum extraction line (fluorine line) for oxygen extraction from silicates.
