

Juan Carlos Silva Tamayo (jsilva-tamayo@uh.edu)

Juan Carlos Silva Tamayo (2013).

M.Sc. thesis (2004): C- and Sr-isotope chemostratigraphic characterization of the Proterozoic São Caetano, Piancó and Cachoeirinha complexes: a regional stratigraphic proxy (supervisor: Prof. A.N. Sial)

Juan Carlos Silva Tamayo holds a B.Sc. (1999) degree from the University EAFIT, Medellin, Colombia, M.Sc. (2004) degree from the Federal University of Pernambuco and Ph.D. (2009) from the University of Berne, Switzerland. His major interest is on carbonate sedimentology and low-temperature isotope geochemistry. Currently, he is an assistant professor of sedimentary and environmental geology in the Earth and Atmospheric Sciences Department, University of Houston, USA.
