

Timothy Owen Goist

Tim Goist (2015).

M.Sc. Thesis (1989): Petrology and geochemistry of the Emas Pluton, northeastern Brazil (supervisor: Prof. Norman Herz. Prof. A.N. Sial acted as a supervisor in his field work).

Tim Goist was a M.Sc. student in the University of Georgia, at Athens. His thesis area was located in the Cachoeinha–Salgueiro Terrane in northeastern Brazil. In 1987, he spent two months at Recife, and did the field work related to his thesis on petrology of the Emas–Olho D’Água pluton, state of Paraíba. For that, he had logistic support from the NEG–LABISE in the Federal University of Pernambuco and the supervision of Prof. A.N. Sial during field work.
