

Alejandro José Toselli (ajtoselli@yahoo.com.ar)

Prof. Alejandro J. Toselli in the left (2014).

Alejandro José Toselli is an emeritus professor in the National University of Tucuman (Instituto Superior de Correlación Geológica) in Argentina. He is an igneous petrologist and geochemist with large experience on cordierite-bearing and magmatic epidote-bearing granitoids, besides isotope chemostratigraphy of Precambrian and Phanerozoic sedimentary successions. He has visited the LABISE in four occasions under the framework of projects sponsored by VITAE or CNPq, and developed with the LÇABISE team joint research in Brazil, Argentina, Chile and Uruguay.
