

Anil Maheshwari (dranilmaheshwari@gmail.com)

Prof. Anil Maheshwari participating in the IGC at Oslo, Norway, 2008.

He is a petrologist at the Department of Geology, Rajasthan University, Jaipur, India. He has visited the LABISE for three months in 1995 (TWAS fellowship) working on oxygen isotopes and geochemistry of volcanic rocks from India. In a second 3-month visit in 1998 (CNPq scholarship) he has worked on C and O-isotope chemostratigraphy of sedimentary carbonates from the Precambrian of India. He keeps a close cooperation with the LABISE and from this joint effort several papers have been published in international journals.
