

**Ignacio Frederico Sabino Garcia** ([ignacio.sabino@tecpetrol.com](mailto:ignacio.sabino@tecpetrol.com))

Ignacio during recreation time with family in USA.

He visited the LABISE for six months as a post-doctor (CNPq fellowship). Graduate (Geology major) in Argentina, and earned his Ph.D. at the Salta University. Geologist with 20 years of experience, 11 years in the oil & gas sector as exploration and development geologist, with a proven track record of major hydrocarbon discoveries and reserve additions; and 9 years as researcher in basin analysis and stratigraphy. He worked as geologist in Venezuela, Argentina, Brazil, Colombia and United States (Permian Basin). In most cases, his main objective was the Cretaceous–Paleogene deposits. His experience in the academy and industry is related to detailed stratigraphic studies of sequences and characterization of reservoirs.
