

Prof. Yuch Ning Shieh (ynshieh@purdue.edu)

Prof. Yuch-Ning Shieh in the LABISE (1992).

Prof. Yuch-Ning Shieh holds a Ph.D. degree from the California Institute of Technology (Caltech) and has been a full professor at the Earth, Atmospheric and Planetary Sciences, Purdue University since 1987. His research interest is on stable-isotope geochemistry, oxygen, hydrogen, and carbon isotopes in igneous and metamorphic petrology, sulfur isotopes in coal and mineral deposits. Prof. Shieh visited the LABISE in 1992 and 2002 and helped with the conventional high-vacuum extraction line (fluorine line).
