

LITHOS

An International Journal of Mineralogy,
Petrology and Geochemistry

Special Issue

**Granites: Crustal Evolution and Associated Mineralisation
from the International Symposium on Granites and Associated
Mineralisations (ISGAM), August 1998, Salvador, Bahia, Brazil**
edited by A.N. SIAL, W.E. STEPHENS, V.P. FERREIRA

Contents

Special Issue: Granites: Crustal Evolution and Associated Mineralisation
from the International Symposium on Granites and Associated Mineralisations (ISGAM), August 1998,
Salvador, Bahia, Brazil

Preface.	331
The Phillips pluton, Maine, USA: evidence of heterogeneous crustal sources and implications for granite ascent and emplacement mechanisms in convergent orogens R.A. Pressley and M. Brown	335
Emplacement, petrological and magnetic susceptibility characteristics of diverse magmatic epidote-bearing granitoid rocks in Brazil, Argentina and Chile A.N. Sial, A.J. Toselli, J. Saavedra, M.A. Parada and V.P. Ferreira	367
Mesoscale pervasive felsic magma migration: alternatives to dyking R.F. Weinberg.	393
Adakitic magmas: modern analogues of Archaean granitoids H. Martin	411
Petrology of the anorogenic, oxidised Jamon and Musa granites, Amazonian Craton: implications for the genesis of Proterozoic A-type granites R. Dall'Agno, O.T. Rämö, M.S. de Magalhães and M.J.B. Macambira	431
Granites and the geodynamic history of the neoproterozoic Brasília belt, Central Brazil: a review M.M. Pimentel, R.A. Fuck and N.F. Botelho	463
The Rapakivi granites of South Greenland—stable isotope characteristics of their black and white facies and the nature of their protolith P.E. Brown, A.E. Fallick, S.M. Becker, T.J. Dempster and D.H.W. Hutton	485
Multiple sources for the Coastal Batholith of central Chile (31–34°S): geochemical and Sr–Nd isotopic evidence and tectonic implications M.A. Parada, J.O. Nyström and B. Levi	505
Oxygen isotopic constraints on the geneses of the Miocene Outer Zone granitoids in Japan S. Ishihara and Y. Matsuhisa	523
Aluminium saturation in I- and S-type granites and the characterization of fractionated haplogranites B.W. Chappell.	535
Geochemical modeling of acid–basic magma interaction in the Sardinia–Corsica Batholith: the case study of Sarrabus, southeastern Sardinia, Italy G. Poli and S. Tommasini	553
Magmatic sulfides and Au:Cu ratios in porphyry deposits: an experimental study of copper and gold partitioning at 850°C, 100 MPa in a haplogranitic melt–pyrrhotite–intermediate solid solution–gold metal assemblage, at gas saturation P.J. Jugo, P.A. Candela and P.M. Piccoli	573
Estimation of aqueous HCl and Cl concentrations in felsic systems P.M. Piccoli, P.A. Candela and T.J. Williams	591
A review of the relationships between granitoid types, their origins and their geodynamic environments B. Barbarin	605
